MTSS READING

HOMEWORK TIPS

-Study the same things in different ways and places.

-Help your child learn about new words or content in a variety of ways.

-Talk about new vocabulary words several times over the course of the week, in different settings.

-Mix up the study time. If your child prefers to do a little math, a little reading, a little word study and then back to math, that's okay!

-Help your child get organized.

-Help your child pick out a special homework notebook or folder, and make sure your child has homework supplies, such as: · pencils · pens · writing paper

-Show your child that you think homework is important.

-Ask your child about her homework each day and check to see that it is completed.

Help your child without doing the homework!

-It's important to answer questions if you can - but remember that homework is supposed to help children learn and that doing your child's homework does not help in the long run.

Talk with your child's teacher

-Find out what the teacher's homework rules are. If your child has a problem completing or understanding homework, e-mail the teacher to talk about the issue.
